Experience Professionnelle

Frontend Developer at AddSlice - September 2022 - August 2023

React Js | Next Js | Tailwind CSS | TypeScript | API services | Babel | Git | GitHub |

Slice is a browser extension that enables users to easily monetize the time and attention they invest in internet browsing.

As a Frontend Developer at AddSlice, I played a pivotal role in shaping the user interface (UI) and enhancing the user experience (UX) for both the company's website and Chrome extension.

Developpeur FullStack chez VastSky - Janvier 2023 - Juin 2023

Next Js | Tailwind CSS | Node Js | Express Js | MongoDB | Stripe | Vercel | Microsoft Azure | Git | GitHub |

For my end-of-studies project, I collaborated with a local business to develop their eCommerce website. I designed the site, integrated payment systems, and optimized it for search engines. This hands-on experience showcased my web development skills and project management abilities, resulting in a successful online store launch.

Mobile Developer Intern at VastSky - June 2022 - September 2022 - Remote

React Native | Firebase | Expo | API services | Git | GitHub |

My Internship with VastSky focused on React Native development, providing hands-on experience and proficiency in mobile app development using the framework. Successfully built a client's mobile app during the internship.

PERSONAL PROJECTS

RootSpace : A Social Media Platform (source code on my github)

React Js | Redux | Supabase | PostgreSQL | Tailwind CSS | Vercel | API services | Git | GitHub |

Built from Scratch , RootSpace is a fullstack project, built for the purpose of learning.

A typical Social media app where users can log in, add posts , likes and comments and get Real-time notifications.

A Spotify Clone (source code on my github)

Next Js | Redux | Supabase | PostgreSQL | Tailwind CSS | Vercel | Stripe | Git | GitHub |

A simple Spotify Clone with a fully functional and secure Payment System with stripe and supabase.

A Real-time ChatApp (source code on my github)

Next Js | GoLang | Gin | Web sockets | PostgreSQL | Docker | Git | GitHub |

A Real-time ChatApp backend service built for the purpose of learning Web sockets, Golang and PostgreSQL.

COMPUTING SKILLS

- Javascript | Typescript | React
Redux | Next Js | Hooks |
Context | Vite | Jest
- Node Js | Express Js | Supabase |
REST API | GraphQL | Golang
- MongoDB | SQL | PostgreSQL |
Supabase | Firebase
- Python | Django
