Fullstack Developer

## Work Experience

### Freelance Gig (08/2022 to 10/2022)

I got an opportunity to build a fullstack dashboard for a client..., Using React, Typescript, Node Js ,MongoDb and more to deliver the best possible result for my partner.

### Internship at VastSky123 (07/2022 to 08/2022)

I Worked on building a fullstack mobile app using React Native and firebase. The main focus of the app is to help small businesses keep track of every invoice they create.

### Internship at VastSky123 (07/2021 to 09/2021)

I had the chance to work with a team of talented developers. on building a fullstack E-Commerce website for an international client.

## Personal Projects

### E-Commerce Shopping Website

A UI clone for a popular shoppify website, I used it as a way to further develop my frontend skills.

### Personal Portfolio Website

I took a challenge to design and build my own portfolio where I can post all my work and informations.

### Authentication API with JWT Token & CRUD in Node.js / MongoDB

I built an API for authentication, authorization using JWT Token, to ensure that the connection is as secure as possible while working with the data using the CRUD API.
